

## 28 - 31 July 2021: HIVE - CII's virtual platform

Dear

The Indian defence manufacturing industry is a significant sector for the economy. The industry is likely to accelerate with rising concerns of national security. Demand for defence equipment in India has been growing due to the ongoing territorial disputes across borders.

These Defence requirements are spanning from military aircraft, submarines, helicopters, land systems to weapons and sensors. With the aim of leveraging the economic opportunity present and achieving self-reliance in aerospace and Defence sector the Government of India announced setting up of two Defence industrial corridors, one in Uttar Pradesh and the other in Tamil Nadu, during the Union Budget of 2018-19.

With this inspiration, Confederation of Indian Industry (CII) in partnership with The Society of Indian Defence Manufactures (SIDM) and Uttar Pradesh Expressways Industrial Development Authority (UPEIDA) is organising Indigenization Summit on Defence & Aerospace (ISDA 2021) from 28 - 31 July 2021 on HIVE - CII's virtual platform.

Key highlights of 4 days summit include:

- Inaugural Session in presence of Chief Minister, Uttar Pradesh
- Exclusive Session on Defence Corridor, Infrastructure Investment & Strategic Partnership Opportunities with CEO, UPEIDA
- Technical Sessions where 100+ industry experts sharing their thoughts and expertise
- 2000 delegates to participate in this 4-day summit
- Series of Vendor Development Programs b/w DPSUs and MSMEs
- Exclusive B2G Meetings
- Plenary Session in presence of Defence Minister, Government of India

As your organization aspires on achieving self-reliance and committed to the vision of "MAKE IN INDIA" by way of encouraging indigenization; I am writing to you with special requests to:

1. Block your diary and join us at Inaugural & Valedictory Ceremony of the summit.
2. Kindly register yourself & others via registration link to join the summit
